Subject: RE: Alert: Will be requesting help on developing estimates for certain projects

---

Hi Jayne,

Thanks for the early notice. We will keep in touch over the next week or so to ensure we have the necessary information to work up estimates.

Thanks, Amy

Subject: Alert: Will be requesting help on developing estimates for certain projects

Hi Amy,

Just wanted to alert you that we may be requesting your help in developing estimates for work to be completed on the following projects through December 2018 and through April 2019. These estimates will be used to request funding from our HQ office so may not need to be refined as when requesting LOE for a technical direction and may go beyond the current or soon to be issued TDs.

This work can be done under the current TD for minor technical support.

Klamath (& other Oregon temperature TMDLs)

Columbia

Willamette

Deschutes (new one)

I believe that the current TD covers the last two waters in the Crooked Creek watershed in Alaska.

Our goal is to provide these estimates to Eric in HQ by mid April.

Jayne Carlin, Task Order COR

EPA Region 10
